

## 1096HA/1097HA Series Anti-Vandal Exterior Trim

The 1096HA and 1097HA Series Anti-Vandal Exterior Trim is a simple, work-hardened, stainless steel exterior door trim that combines a latch protector and handicapped complying door pull, for use in conjunction with inside lever only locksets or inside mounted rim type panic devices.

### Design Objectives:

1. Extremely rugged and vandal resistant.
2. All-in-one basic model.
3. Grip sizing for handicapped use.
4. It is insulated against heat and cold, so it stays comfortable to touch.

### Features:

1. Latch protector (1096HA only).
2. Handicapped complying door pull.
3. No exterior fasteners.
4. Design prevents attack of exterior cylinder with wrench or pliers.
5. Handle is beveled so ropes and chains will slide off.
6. Specify handing.
7. Studs may be integrated into panic mountings.
8. No sharp edges.
9. Approximate 7" x 11" x 1/8" thick, with a 1-1/2" clearance.
10. Ideal for exterior opening classroom doors, and/or any other door where use of an exterior lever presents an attraction to vandalism.
11. Good for rear or side doors of commercial buildings where these doors are used for deliveries, refuse, etc., and are vulnerable to vandalism.
