

Attention Specification Writers!

**3900 Double-2 Point Flush bolt
For inactive hollow metal doors**

This is the only device that meets ADA codes

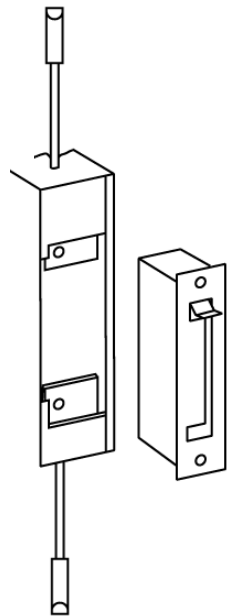

This device is simple and easy to operate.

- Operates a pair of flush bolts at the top and bottom of a hollow metal door.
- Mounts in mortise lock prep of the inactive leaf.
- The faceplate acts as a strike for latch bolt and deadbolt.
- Wheel chair and ADA friendly.
- Made in the U.S.A.
- No competitors!

When ordering, make sure you specify the lock brand and series that the 3900 is to be used with.
