“UL” Approved .050 Kick, Mop and Armor Plates, and Edge Guards
April 2009

TRIMCO is pleased to announce that UL Listed kick, mop and armor plates, and edge guards are now available for rated doors.

Maximum size of plates will be no more than 48 inches in height and no more than 46 inches in width. Plates will be applied with #6 truss head, phillips head, sheet metal screws with standard spacing for mounting.

Plates may be Stainless Steel, Brass, Bronze or Aluminum.

The approved plates are intended for use on steel fire doors and frames rated up to and including 3 hours.

Trimco's Edge Guards are also now rated at 1-1/2" hours for wood composite type fire doors and at 3 hours for steel fire doors. Edge guards will be applied with #5 Flat head, sheet metal screws with standard spacing for mounting.

Plates and edge guards that require “UL” label must be specified on customer's purchase order at the time of ordering. There is an additional cost for ordering plates and edge guards with a “UL” label.
